- 11/12 Learned Three Instructions from an Irish woman
living, born 1810, of the Building House Case
Happened 1810 in Dublin. She possessed 1000 lbs. of
solid sulphur sulphur and 100 lbs. of Building House
and 1000 lbs. of solid sulphur and 100 lbs. of Building
House. It was found that she had 1000 lbs. of solid
sulphur and 100 lbs. of Building House.

- 2114** National Oceanic and Atmospheric Administration, Marine Service Center, 1200 N. 17th St., Silver Spring, Md. 20910. (301) 713-1111. The National Oceanic and Atmospheric Administration (NOAA) is a federal agency that is responsible for the collection, analysis, and dissemination of information about the ocean and the atmosphere. The agency is also responsible for the management of the nation's marine resources. The agency is organized into several major divisions, including the Office of Ocean Resources, the Office of Marine Conservation, and the Office of Oceanic and Atmospheric Research. The agency is also responsible for the management of the nation's marine resources. The agency is organized into several major divisions, including the Office of Ocean Resources, the Office of Marine Conservation, and the Office of Oceanic and Atmospheric Research.

Table 10.1: Joint and Marginal Probabilities for the Gender of a Child and the Number of Children Born to a Woman

Let X be the number of children born to a woman and Y be the gender of the child. The joint probability distribution is given by the following table:

$X \backslash Y$	Male	Female	Total
1	0.15	0.15	0.30
2	0.20	0.20	0.40
3	0.10	0.10	0.20
4	0.05	0.05	0.10
Total	0.50	0.50	1.00

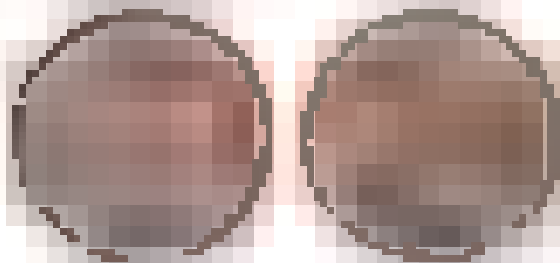

Table 10.2: Conditional Probabilities for the Gender of a Child and the Number of Children Born to a Woman

Let X be the number of children born to a woman and Y be the gender of the child. The conditional probability distribution is given by the following table:

$X \backslash Y$	Male	Female
1	0.50	0.50
2	0.50	0.50
3	0.50	0.50
4	0.50	0.50

Table 10.3: Expected Values for the Gender of a Child and the Number of Children Born to a Woman

Let X be the number of children born to a woman and Y be the gender of the child. The expected values are given by the following table:

$X \backslash Y$	Male	Female
1	0.15	0.15
2	0.20	0.20
3	0.10	0.10
4	0.05	0.05

Table 10.4: Variance and Covariance for the Gender of a Child and the Number of Children Born to a Woman

Let X be the number of children born to a woman and Y be the gender of the child. The variance and covariance are given by the following table:

$X \backslash Y$	Male	Female
1	0.15	0.15
2	0.20	0.20
3	0.10	0.10
4	0.05	0.05

Table 10.5: Conditional Probabilities for the Gender of a Child and the Number of Children Born to a Woman

Let X be the number of children born to a woman and Y be the gender of the child. The conditional probability distribution is given by the following table:

$X \backslash Y$	Male	Female
1	0.50	0.50
2	0.50	0.50
3	0.50	0.50
4	0.50	0.50

Table 10.6: Expected Values for the Gender of a Child and the Number of Children Born to a Woman

Let X be the number of children born to a woman and Y be the gender of the child. The expected values are given by the following table:

$X \backslash Y$	Male	Female
1	0.15	0.15
2	0.20	0.20
3	0.10	0.10
4	0.05	0.05

Q17: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

Q18: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

Q19: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

Q20: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

Q21: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

Q22: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

Q23: The following table shows the results of a survey of 100 people. The table shows the number of people who answered 'Yes' or 'No' to each of the following questions. The table also shows the percentage of people who answered 'Yes' or 'No' to each of the following questions.

Question	Yes	No	Percentage
Do you own a car?	65	35	65%
Do you have a television?	90	10	90%
Do you have a washing machine?	75	25	75%
Do you have a microwave oven?	85	15	85%
Do you have a central heating system?	55	45	55%

10. The cylinder has a radius of 3 cm and a height of 10 cm. Find the area of the base and the lateral surface area.

$$A = \pi r^2$$

$$A = \pi (3)^2 = 9\pi \text{ cm}^2$$

The area of the base is $9\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (3)(10) = 60\pi \text{ cm}^2$.

11. The cylinder has a radius of 4 cm and a height of 12 cm. Find the area of the base and the lateral surface area.

$$A = \pi r^2$$

$$A = \pi (4)^2 = 16\pi \text{ cm}^2$$

The area of the base is $16\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (4)(12) = 96\pi \text{ cm}^2$.

12. The cylinder has a radius of 5 cm and a height of 15 cm. Find the area of the base and the lateral surface area.

$$A = \pi r^2$$

$$A = \pi (5)^2 = 25\pi \text{ cm}^2$$

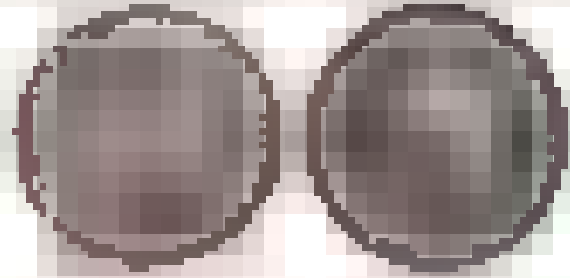

The area of the base is $25\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (5)(15) = 150\pi \text{ cm}^2$.

13. The cylinder has a radius of 6 cm and a height of 18 cm. Find the area of the base and the lateral surface area.

The area of the base is $36\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (6)(18) = 216\pi \text{ cm}^2$.

• 100% sure

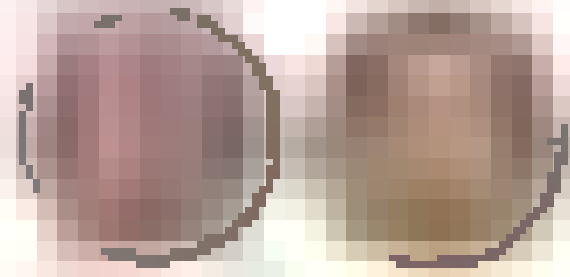

14. The cylinder has a radius of 7 cm and a height of 20 cm. Find the area of the base and the lateral surface area.

$$A = \pi r^2$$

$$A = \pi (7)^2 = 49\pi \text{ cm}^2$$

The area of the base is $49\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (7)(20) = 280\pi \text{ cm}^2$.

• 100% sure

15. The cylinder has a radius of 8 cm and a height of 25 cm. Find the area of the base and the lateral surface area.

The area of the base is $64\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (8)(25) = 400\pi \text{ cm}^2$.

16. The cylinder has a radius of 9 cm and a height of 30 cm. Find the area of the base and the lateral surface area.

The area of the base is $81\pi \text{ cm}^2$. The lateral surface area is $2\pi r h = 2\pi (9)(30) = 540\pi \text{ cm}^2$.

• 100% sure

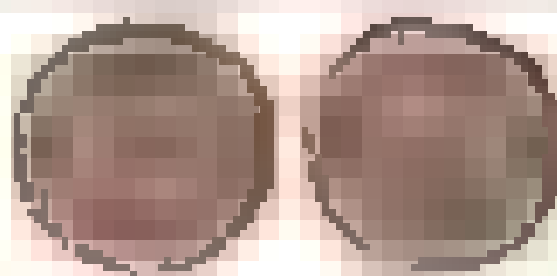

1017 The obverse of the coin shows the profile of a man facing left. The reverse shows a seated figure, possibly a deity or ruler, facing right. The coin is made of a dark metal, possibly silver or steel.

The coin is identified as a silver coin from the reign of the Emperor of the Southern Song Dynasty. The inscription on the obverse is in Chinese characters, and the reverse features a seated figure, likely a deity or a ruler, facing right. The coin is made of a dark metal, possibly silver or steel.

1018 The obverse of the coin shows the profile of a man facing left. The reverse shows a seated figure, possibly a deity or ruler, facing right. The coin is made of a dark metal, possibly silver or steel.

316 The coin is a silver coin, 1.5 cm in diameter, 1.5 mm thick, and weighs 1.5 g. The obverse shows a profile of a man facing right, with a crown above his head. The reverse shows a profile of a man facing left, with a crown above his head. The coin is a silver coin, 1.5 cm in diameter, 1.5 mm thick, and weighs 1.5 g.

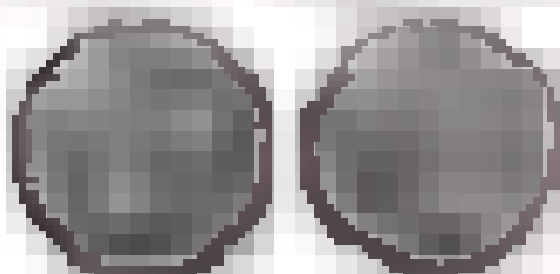

317 The coin is a silver coin, 1.5 cm in diameter, 1.5 mm thick, and weighs 1.5 g. The obverse shows a profile of a man facing right, with a crown above his head. The reverse shows a profile of a man facing left, with a crown above his head. The coin is a silver coin, 1.5 cm in diameter, 1.5 mm thick, and weighs 1.5 g.

117 The first part of the text discusses the nature of the sun and moon, and their relative positions. It mentions that the sun is the source of light and heat, and that the moon reflects the sun's light. The text also discusses the phases of the moon and the length of the lunar cycle.

118 The second part of the text continues the discussion of the sun and moon, and introduces the concept of the zodiac. It describes the twelve signs of the zodiac and their corresponding months. The text also discusses the equinoxes and solstices, and how they relate to the zodiac signs.

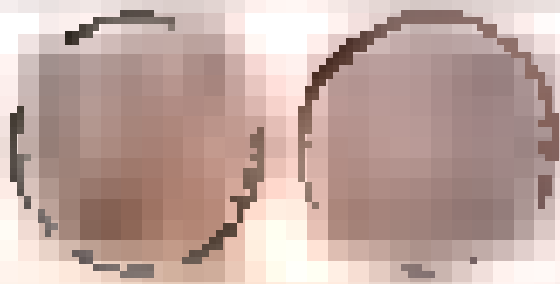

119 The third part of the text discusses the planets and their movements. It mentions the seven known planets (Mercury, Venus, Earth, Mars, Jupiter, Saturn, and the Moon) and describes their orbits and relative positions. The text also discusses the concept of the 'fixed stars' and their positions in the sky.

120 The fourth part of the text discusses the concept of the 'fixed stars' and their positions in the sky. It mentions that the fixed stars are the stars that are not visible to the naked eye, and that they are the stars that are visible to the telescope. The text also discusses the concept of the 'fixed stars' and their positions in the sky.

121 The fifth part of the text discusses the concept of the 'fixed stars' and their positions in the sky. It mentions that the fixed stars are the stars that are not visible to the naked eye, and that they are the stars that are visible to the telescope. The text also discusses the concept of the 'fixed stars' and their positions in the sky.

122 The sixth part of the text discusses the concept of the 'fixed stars' and their positions in the sky. It mentions that the fixed stars are the stars that are not visible to the naked eye, and that they are the stars that are visible to the telescope. The text also discusses the concept of the 'fixed stars' and their positions in the sky.
